SFA + DMS | File index

Find the source folder, code explanation and complete-handbook PDF page for every documented file.

How to use

Search this PDF with Ctrl+F for a file name, product feature or folder. The last column gives the PDF viewer page number in the 3,003-page complete code explanation, not the printed Reference page number. Use the HTML File Index for clickable explanation links and live search.

Snapshot: 26 October 2026 | 1,048 documented files. Dependencies, credentials, compiled outputs and backups are excluded.
